Mr. Henry S. Rowen
Chairman, National Intelligence Council
Central Intelligence Agency
Washington, D.C. 20305

Dear Harry:

As we discussed during your visit to Admiral Burkhalter, and subsequently, DIA would appreciate the opportunity to acquaint you with our organization and capabilities and have you meet key personnel.

Major General James Williams has reported for duty as Director, Defense Intelligence Agency, but we do not expect General Williams to be available for your visit before early October. Although we would be glad to have you visit prior to that time, we believe the preferable course is to schedule your visit when General Williams can be available.

We propose, therefore, a visit in early October, on a date mutually convenient for you and General Williams. The program we propose would include:

- a. Presentation on "DIA Organization, Mission, and Functions."
- b. Presentation on "DIA in the Community."
- c. Presentation on DIA Substantive Production:
 - (1) Overview
 - (2) Basic Research
 - (3) Scientific and Technical
 - (4) Estimative Intelligence
 - (5) Role of Defense Intelligence Officers
 - (6) Current Intelligence and Indications and Warning
 - a) Presentation
 - b) Walk-through of National Military Intelligence Center (Alert Center), National Military Command Center, and Collection Control Facility.

(7) Introduction to key personnel, including Command Element and all senior production personnel.

(8) Lunch (DIA host)

The program outlined above would require about six hours. We believe it would provide a useful appreciation of DIA's capabilities, its unique relationship to current and long term military planning and operations, and its ability to support your office. We would, of course, be prepared to amend the program to accommodate your needs.

I will telephone you in the next few days to obtain your reaction and establish firm dates and arrangements.

Sincerely,

Vice Director for
Foreign Intelligence
